

## 4 Regional Indices

### 4.1 Main Centres

City	Index
Auckland	100.00
Wellington	98.00
Christchurch	105.00
Dunedin	96.00

### 4.2 Provincial

These indices are a broad indication only of cost variation between cities and towns within New Zealand, and are applicable to the total project costs.

Please note that these indices are intended to be applied where the project is capable of being carried out by local resources. If the nature or size of the project requires an 'out-of-town' contractor, then these indices will not necessarily apply.
